GETTING THE MOST FROM EQUANET ONLINE

Nothing is better than receiving that personal touch

At Equanet we are developing our website with you and your needs in mind.

Account Management Team

If you visit the website but want additional help and guidance, it's easy to pinpoint who to call. Your Account Manager's e-business card is displayed as you log-in showing their contact details, notes about their duties and responsibilities. They're here to help you, when you need them.

Keep In Touch

With our online 'chat' service you can contact your Account Manager directly. Simply log-in and send a quick note. You can get advice and support whilst both you and your Account Manager benefit from the 'live' view of www.equanet.co.uk.

Quick Quotations

We can send you a quick quotation. Your Account Manager can email you a web link to view a basket of products and prices. When you're ready to order, you can amend the products and change your basket.

Personalised Pages

Create your favourites list online and save time searching for items you purchase regularly. For items that are frequently purchased together, you can create a 'bundle' and save it with your favourites.

Future ordering is then simple and easy – ensuring your essential items are always purchased together. Your Account Manager can help with your favourites and can add the latest product upgrades should the technology advance.

Equanet BLOGs

Our Equanet BLOGs give you access to topical business news, and we can publish information that you want to see, such as service and delivery documentation, personal to your own business account.
